1. The Ministry of Agriculture and the Rumanian Workers' Party have issued instructions to the Machine and Tractor Stations (MTS) on the harvesting campaign. Many special machines, threshers, and reapers have been imported to enable MTS to fulfill their quotas, since, in general, a good harvest is expected, provided there are no natural disasters. About 4,000 plows throughout the country have been repaired in order to permit plowing the fields immediately after harvesting. 25X1
2. Cultivation of corn was carried out on time, and every effort was made to plant a greater area with corn than planned. A good corn crop is expected. 25X1
3. Other MTS work is going according to schedule. Field brigades have been set up in collectives and state farms and are working on the crops. Particular attention is given to sugar beets, oil producing plants, and corn. 25X1
